The Brain of Robert Frost - Norman Norwood Holland 1988 In his newest book, Norman Holland brings brain science to literary criticism. The Brain of Robert Frost combines psychoanalysis with the revolutionary new findings of brain research and cognitive psychology to model the way we create and respond to literature. Holland draws three central ideas from "the mind's new science": the critical "supercharged" period in infancy when individuality is formed; the binding of emotion to intellect deep in the old brain; the top-down, inside-out, feedback processing of language in the new. Then, using Robert Frost as an example both of a writer and a reader, and comparing Frost's reading of a poem to readings by six professors of literature, Holland builds a new, powerful way of thinking about literary criticism and teaching. - Back cover.
cognitive psychology.

Robert Frost & the New England Renaissance-George Monteiro 1988

Toward Robert Frost-Judith Oster 1994-02-01 Every poem, Robert Frost declared, "is an epitome of the great predicament, a figure of the will braving alien entanglements". This study considers what Frost meant by those entanglements, how he braved them in his poetry, and how he invited his readers to do the same. In the process it contributes significantly to a new critical awareness of Frost as a complex artist who anticipated postmodernism--a poet who invoked literary traditions and conventions frequently to set himself in tension with them. Using the insights of reader-response theory, Judith Oster explains how Frost appeals to readers with his apparent accessibility and then, because of the openness of his poetry's possibilities, engages them in the process of constructing meaning. Frost's poems, she demonstrates, teach the reader how they should be read; at the same time, they resist closure and definitive reading. The reader's acts of encountering and constructing the poems parallel Frost's own encounters and acts of construction. Commenting at length on a number of individual poems, Oster ranges in her discussion from the ways in which the poet dramatizes the inadequacy of the self alone to the manner in which he "reads" the Book of Genesis or the writing of Emerson. Oster illuminates, finally, the central conflict in Frost: his need to be read well against
his fear of being read; his need to share his creation against his fear of its appropriation by others.

**Bloom's how to Write about Robert Frost**-Michael R. Little 2009-11-01 A guide to writing about the poems of the American author offers instructions for composing different types of essays and contains literary criticism for such works as "Birches," "Mending Wall," "The Road Not Taken," and "Acquainted with the Night."

**On the Sonnets of Robert Frost**-H.A. Maxson 2005-01-01 "The sonnet is the strictest form I have behaved in, and only then by pretending it wasn't a sonnet," Frost once wrote to Louis Untermeyer. Frost wrote his sonnets in couplets, triplets, and terza rima; frequently, he combined elements of the Italian and English forms. His genius was in incorporating diverse styles, renewing reader interest in the form while retaining its accessibility. Several of the sonnets discussed are generally recognized as among the finest poems written in the twentieth century. This is the first work to examine all the 37 poems published that are, based on the poet's own prose writings on the subject, defined as true sonnets. It also provides a discussion of why some Frost works commonly accepted as sonnets do not meet his own criteria. Of course, the book provides content analyses of the sonnets with discussions of the various structures used.

**Critical Companion to Robert Frost**-Deirdre J. Fagan
2007 Known for his favorite themes of New England and nature, Robert Frost may well be the most famous American poet of the 20th century. This is an encyclopedic guide to the life and works of this great American poet. It combines critical analysis with information on Frost's life, providing a one-stop resource for students.

The Robert Frost Encyclopedia-Nancy Lewis Tuten 2001
Often thought of as the quintessential poet of New England, Robert Frost is one of the most widely read American poets of the 20th century. But in spite of his ties to New England, he was born in San Francisco; he published his first book of poetry in England rather than the United States; he matured as a poet during his years abroad; and upon his return to America, he sometimes taught at the University of Michigan and spent many of his winters in Florida. This reference book provides hundreds of alphabetically arranged entries on Frost's poems and illuminates the complexities of his life and writings. Entries are written by expert contributors and conclude with brief citations of additional sources of information. The volume includes a chronology and closes with a bibliography of major studies.

A Study Guide for Robert Frost's "The Wood-Pile," excerpted from Gale's acclaimed Poetry for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and
much more. For any literature project, trust Poetry for Students for all of your research needs.

**Robert Frost and Feminine Literary Tradition**-Karen L. Kilcup 1998 Uncovers heretofore overlooked influences and connections in the evolution of Frost’s poetry

**Robert Frost**-Harold Bloom 2003-01 A collection of critical essays discuss the works of the American poet.

**Norman N. Holland**-Jeffrey Berman 2021-03-11 Norman Holland was unquestionably the leading 20th-century American psychoanalytic literary critic. Long known as the Dean of American psychoanalytic literary critics, Holland produced an enormous body of scholarship that appeals to both neophytes in the field and advanced researchers, many of whom have been influenced by his writings. Holland was one of the first proponents of reader-response criticism, the theorist of readers' identity themes, and the author of fifteen books that have become classics in the field. Jeffrey Berman analyzes all of Holland's books, and many of his 250 scholarly articles, highlighting continuities and discontinuities in the critic's thinking over time. A controversial if not polarizing figure, Holland is discussed in relation to his closest colleagues, including Murray Schwartz, Bernard Paris, and Leslie Fiedler, as well as his fiercest critics, among them Frederick Crews, David Bleich, and Jonathan Culler, creating a dynamic and personal
portrait. Insofar as this text illuminates the evolving mind of a premier literary critic, it produces a parallel profile of the American reader, the primary object of Holland's extensive work.

Robert Frost in Context—Mark Richardson 2014-04-14
Forty essays from influential scholars and poets offer a fresh, multifaceted assessment of the life and works of Robert Frost.

The Letters of Robert Frost, Volume 2—Robert Frost 2016-09-13
The second installment of Harvard’s critically acclaimed five-volume edition of Robert Frost’s correspondence contains letters from 1920 to 1928, 400 of them gathered here for the first time. His 160 correspondents include family, friends, colleagues, fellow writers, visual artists, publishers, educators, librarians, farmers, and admirers.

Brain Camp—Charles Harper Webb 2015-04-06
Powered by a fierce, compassionate intelligence, Brain Camp explores with clarity and vividness a wide spectrum of emotions—love to hate, tenderness to brutality—all from a perspective both universal yet distinctly Webb's. Metaphors of startling aptness and originality, a voice at once endearing and provocative, high musicality, propulsive energy, wild imaginative leaps, as well as a mastery of diction from lyricism to street-speak, create a reading
experience of the first order. These poems go down easy, but pack a wallop. As Robert Frost said poetry should do, Brain Camp "begins in delight and ends in wisdom."

**Belief and Uncertainty in the Poetry of Robert Frost**
Robert Pack 2003 A leading Frost critic guides the reader through some of the poet's most challenging verse.

**A Companion to Twentieth-Century Poetry**
Neil Roberts 2008-06-09 This broad-ranging "Companion" gives readers a thorough grounding in both the background and the substance of eighteenth-century poetry in all its rich variety. An up-to-date and wide-ranging guide to eighteenth-century poetry. Reflects the dramatic transformation which has taken place in the study of eighteenth-century poetry over the past two decades. Opens with a section on contexts, discussing poetry's relationships with patriotism, politics, science, and the visual arts, for example. Discusses poetry by male and female poets from all walks of life. Includes numerous close readings of individual poems, ranging from Pope's "The Rape of the Lock" to Mary Collier's "The Woman's Labour." Includes more provocative contributions on subjects such as rural poetry and the self-taught tradition, British poetry 'beyond the borders', the constructions of femininity, women as writers and women as readers. Designed to be used alongside David Fairer and Christine Gerrard's "Eighteenth-century Poetry: An Annotated Anthology" (Blackwell Publishing, Second Edition, 2003).
Becoming a Reader-J. A. Appleyard 1994-01-28 Becoming a Reader in allowing us to predict our reading experience, allows us, as adults, to choose what to do with the power which reading gives us.

The Collected Prose of Robert Frost-Robert Lee Frost 2007 Presents a collection of both published and unpublished prose pieces, including correspondence, articles, talks, readings, and stories.

Robert Frost-Peter Van Egmond 1991

The Oxford Book of American Poetry-David Lehman 2006 Redefines the great canon of American poetry from its origins in the 17th century right up to the present.

The Notebooks of Robert Frost-Robert Frost 2006 Robert Frost is one of the most widely read, well loved, and misunderstood of modern writers. In his day, he was also an inveterate note-taker, penning thousands of intense aphoristic thoughts, observations, and meditations in small pocket pads and school theme books throughout his life. These notebooks, transcribed and presented here in their entirety for the first time, offer unprecedented insight into Frost's complex and often highly contradictory thinking about poetics, politics, education, psychology, science, and religion--his attitude toward Marxism, the New Deal, World
War—as well as Yeats, Pound, Santayana, and William James. Covering a period from the late 1890s to early 1960s, the notebooks reveal the full range of the mind of one of America's greatest poets. Their depth and complexity convey the restless and probing quality of his thought, and show how the unruliness of chaotic modernity was always just beneath his appearance of supreme poetic control. Edited by preeminent Frost scholar Robert Faggen and annotated to help readers with the poet's more elusive references, the notebooks are also thoroughly cross-referenced, marking thematic connections within these and Frost's other writings, including his poetry, letters, and other prose. This is a major new addition to the canon of Robert Frost's writings.

**Conversations with Robert Frost** - Peter Stanlis
2017-07-05 These core conversations between Peter Stanlis and Robert Frost occurred during 1939-1941. They are written in the much larger context of nearly a quarter century of friendship that ended only with the passing of Frost in 1963. These discussions provide a unique window of opportunity to appreciate the sources of Frost's philosophical visions, as well as his poetic interests. The discussions between Stanlis and Frost were held between six consecutive summers (1939-1944), when Stanlis was a student at the Bread Loaf Graduate School of English. These were augmented by additional exchanges at Bread Loaf in 1961-1962. These conversations provide original insights on important subjects common to both men. Frost insisted that it was impossible to make a complete or final unity out of...
the conflicts between spirit and matter. Ordinary empirical experience and rational discursive reason and logic could not harmonize basic conflicts. He held that the best method to ameliorate apparent contradictions in dualistic conflicts was through the "play" of metaphorical thinking and feeling. Metaphors included parables, allegories, fables, images, symbols, irony, and the forms and techniques of poetry such as rhyme, rhythm, assonance, dissonance, personifications, and connotations. These are the arsenal from which poets draw their insightful metaphors, but such metaphors are also the common property of every normal person. A poem is "a momentary stay against confusion," a form of revelation for "a clarification of life," but not a final, absolute answer to the mysteries and complexities in man's life on Earth. So too - at their best - are science, religion, philosophy, education, politics, and scholarship as a means of ameliorating human problems.

The Letters of Robert Frost, Volume 3

Robert Frost
2021-04-13
The Letters of Robert Frost, Volume 3 collects 601 letters, covering 1929-1936. The letters chronicle Frost's negotiation of life as a public figure and as the head of a family enduring tragedy. Fully annotated and accompanied by biographical material, the letters reveal the mind of an artist at the height of his powers.

Robert Frost
1975
The Ordeal of Robert Frost - Mark Richardson 1997
Through close readings of Frost's poetry and often ignored prose, Mark Richardson argues that Frost's debates with Van Wyck Brooks, Malcolm Cowley, and H. L. Mencken informed his poetics and his poetic style just as much as did his deep identification with earlier writers like Emerson and William James.

The Letters of Robert Frost - Robert Frost 2014-02-25
Pensive, mercurial, and often funny, the private Robert Frost remains less appreciated than the public poet. The Letters of Robert Frost, the first major edition of the correspondence of this complex and subtle verbal artist, includes hundreds of unpublished letters whose literary interest is on a par with Dickinson, Lowell, and Beckett.

The Poetry of Robert Frost - Robert Frost 1979
This definitive, paperback edition brings together more than three hundred fifty of Frost's poems, each one with annotations providing complete bibliographic information and noting any textual changes.

Robert Frost and the Politics of Poetry - Tyler Hoffman 2001
A powerful and persuasive new reading of Frost as a poet deeply engaged with both the literary and public politics of his day.
Robert Frost and the New England Renaissance

George Monteiro 2021-05-11

"A poem is best read in the light of all the other poems ever written." So said Robert Frost in instructing readers on how to achieve poetic literacy. George Monteiro's newest book follows that dictum to enhance our understanding of Frost's most valuable poems by demonstrating the ways in which they circulate among the constellations of great poems and essays of the New England Renaissance. Monteiro reads Frost's own poetry not against "all the other poems ever written" but in the light of poems and essays by his precursors, particularly Emerson, Thoreau, and Dickinson. Familiar poems such as "Mending Wall," "After Apple-Picking," "Birches," "Stopping by Woods on a Snowy Evening," "The Road Not Taken," and "Mowing," as well as lesser known poems such as "The Draft Horse," "The Ax-Helve," "The Bonfire," "Dust of Snow," "A Cabin in the Clearing," "The Cocoon," and "Pod of the Milkweed," are renewed by fresh and original readings that show why and how these poems pay tribute to their distinguished sources. Frost's insistence that Emerson and Thoreau were the giants of nineteenth-century American letters is confirmed by the many poems, variously influenced, that derive from them. His attitude toward Emily Dickinson, however, was more complex and sometimes less generous. In his twenties he molded his poetry after hers. But later, after he joined the faculty of Amherst College, he found her to be less a benefactor than a competitor. Monteiro tells a two-stranded tale of attraction, imitation, and homage countered by competition, denigration, and grudging acceptance of Dickinson's greatness as a woman poet. In a daring move, he composes -- out of Frost's own
words and phrases -- the talk on Emily Dickinson that Frost was never invited to give. In showing how Frost's work converses with that of his predecessors, Monteiro gives us a new Frost whose poetry is seen as the culmination of an intensely felt New England literary experience.

**Instantaneous**-Donald Hooker 2004-06-01 This book is a compilation of poetry and short stories. The words of the author shine through with new vibrancy and feeling. You get a chance to step in to his world and feel his words, see his thoughts, and maybe experience some things you've forgotten. The poetry is of Love and Loss but also of many different facets of life. A variety of poetry so diverse, bringing together feelings of joy and sorrow. Along with these wonderful works of words is the poem "Together," which has won the International Library of Poetry's Editor's Choice award. It is a must for any poetry fan, whether your tastes range any where from Dr. Suess to Robert Frost. This book is food for the brain, and the heart.

**Robert Frost**-Morris Dickstein 2010 Following a brief biography of Robert Frost by James Norman O'Neill and a succinct critical comment by Elizabeth Gumport of The Paris Review, this volume, containing both newly commissioned pieces and reprinted essays and book chapters, brings together an unusually wide range of approaches to Frost's poetry. Though Frost has been famous and widely celebrated in the United States for nearly a century, his reputation has shifted dramatically since his first volumes.
appeared just before World War I. Acclaimed as a modernist by Ezra Pound when his first two books appeared in England, where he was then living, Frost became popular as a warm, accessible poet from the 1920s through the 1950s as four of his collections received the Pulitzer Prize. He was admired as homey and straightforward when modernist writing was often obscure; as a nature poet, an authentically American writer, when many modernists were cosmopolitan expatriates; and as an optimistic New England sage when his leading contemporaries produced dark,

**Robert Frost and Northern Irish Poetry**-Rachel Buxton 2004-05-27 In this incisive and highly readable study, Rachel Buxton offers a much-needed assessment of Frost's significance for Northern Irish poetry of the past half-century. Drawing upon a diverse range of previously unpublished archival sources, including juvenilia, correspondence, and drafts of poems, Robert Frost and Northern Irish Poetry takes as its particular focus the triangular dynamic of Frost, Seamus Heaney, and Paul Muldoon. Buxton explores the differing strengths which each Irish poet finds in Frost's work: while Heaney is drawn primarily to the Frost persona and to the "sound of sense", it is the studied slyness and wryness of the American's poetry, the complicating undertow, which Muldoon values. This appraisal of Frost in a non-American context not only enables a fuller appreciation of Heaney's and Muldoon's poetry but also provides valuable insight into the nature of trans-national and trans-generational poetic influence. Engaging with the politics of Irish-American literary
connections, while providing a subtle analysis of the intertextual relationships between these three key twentieth-century poets, Robert Frost and Northern Irish Poetry is a pioneering work.

**Alluring Words of Robert Frost**-Sreechinth C The four time Pulitzer prize winner, Robert Frost is the most renowned American poet, famous for his realistic versification of rural life. His association with the life and landscape of the England during his abode there, had much influence on his verses. Robert Frost used the New England settings to scrutinize the highly complex philosophical and social themes. This celebrated poet is the author of the popular poems, “After Apple Picking”, “The Road Not Taken”, “Home Burial” and “Mending Wall”. About Robert Frost, President John. F. Kennedy said “He has bequeathed his nation a body of imperishable verse from which Americans will forever gain joy and understanding”. In the book ‘Alluring Words of Robert Frost’, we have the poetic words of this most quoted Nature’s poet.

**The Brain in Your Kitchen**-David Disalvo 2012-11-27 Every day, we're faced with choices about what to eat, wear, and purchase. Blinded by a tsunami of information—some good, some bad, some intentionally misleading—often our brains are too overwhelmed to examine all the details. So how do we know we're making the best decisions for us? Author and science journalist David DiSalvo asks what's best for our brains instead. The Brain in Your Kitchen sifts
through the good and bad information on the things we buy, the foods we eat, and the medicines we take. Using findings from cutting-edge science, DiSalvo divulges terrifically useful and little-known facts—each grounded in credible research—about everything from how gluten to cats affect your brain. Learn how we can trick our minds into helping us lose weight, what placebos are costing us big bucks with no results, and what caffeine is actually doing inside your head to give you that extra pep. Disalvo cuts through frantic media sensation and consumer marketplace babble and gives you the knowledge to distinguish hyperbole from truth so you're ready next time you sit down for dinner.

Robert Frost’s Poetry of Rural Life—George Monteiro
2015-02-25 "Wise old Vergil says in one of his Georgics, 'Praise large farms, stick to small ones,'" Robert Frost told a friend. "Twenty acres are just about enough." Frost started out as a school teacher living the rural life of a would-be farmer, and later turned to farming full time when he bought a place of his own. After a sojourn in England where his first two books—A Boy's Will and North of Boston—were published to critical acclaim, he returned to New England, acquired a new farm and became a rustic for much of the rest of his life. Frost claimed that all of his poetry was farm poetry. His deep admiration for Virgil's Georgics, or poems of rural life, inspired the creation of his own New England "georgics." This body of work can be seen as his answer to the haughty 20th-century modernism that seemed certain to define the future of Western poetry. Like the "West-Running Brook" in his poem of the same name, Frost's poetry can be
seen as an embodiment of contrariness.

**Cognitive Linguistics: Current Applications and Future Perspectives**-Gitte Kristiansen 2006-01-01 Cognitive Linguistics: Current Applications and Future Perspectives is an up-to-date survey of recent research in Cognitive Linguistics and its applications by prominent researchers. The volume brings together generally accessible syntheses and special studies of Cognitive Linguistics strands in a sizable format and is thus an asset not only to the Cognitive Linguistics community, but also to neighbouring disciplines and linguists in general. The volume covers a wide range of fields and combines wide accessibility with a highly specific information value. Key features: An excellent source for the study of Applied Cognitive Linguistics, one of the most popular and fastest growing areas in Linguistics. Authoritative and detailed survey articles by leading scholars in the field. Accessible to a general audience, yet also characterized by a highly specific information value.

**Robert Frost: Speaking on Campus: Excerpts from His Talks, 1949-1962**-Robert Frost 2009-09-28 Offering insight into the poet's lesser-known contributions as a teacher and lecturer, a collection of excerpts from forty-six of his presentations includes such topics as "What I think I'm doing when I write a poem" and "The future of the world."
