Transgenerational trauma - Wikipedia
Transgenerational trauma, or intergenerational trauma, is the psychological effects that the collective trauma experienced by a group of people has on subsequent generations in that group. Collective trauma is the effect of psychological trauma experienced by communities and identity groups and carried as part of the group's collective memory and shared sense of identity.

Trauma | The Administration for Children and Families
Historical trauma is multigenerational trauma experienced by a specific cultural, racial or ethnic group. It is related to major events that oppressed a particular group of people because of their status as oppressed, such as slavery, the Holocaust, forced migration, and the violent colonization of Native Americans.

The legacy of trauma - American Psychological Association
Less directly studied is the multigenerational impact of slavery on African-Americans. But an important line of related research studies the relationship between ongoing racial discrimination and trauma. Monnica Williams, PhD, of the University of Connecticut, who has extensively explored this topic, recently developed a measure to assess

CoastLine: "It broke my hip." Kieran Haile, Alex Manly's
Nov 02, 2021 · It wasn’t until Kieran Haile broke his hip at age 29 that he began to learn about how traumas from America’s early years are more than a dissociated story from the past. His brittle bone disease, he learned, is a consequence of slavery in the American south, when white slaveowners would rape Black women – eventually, perhaps, raping their own daughters. Kieran Haile, the ...

Trauma Studies – Literary Theory and Criticism
Examining the cultural context of an individual or collective group’s experience of trauma enables greater attention to representations of extreme experience such as rape, war, the Holocaust, the Gulag, American slavery, colonial oppression, and racism.

African American Health and Posttraumatic Slave Syndrome
Oct 12, 2018 · As such, the TMT predicted symptoms of cultural trauma, in the form of hopelessness, despair, and anxiety, were evident during enslavement and found in personal narratives: "I was broken in body, soul, and spirit; the dark night of slavery closed in on me; and behold a man transformed into a brute!"

POST TRAUMATIC SLAVE SYNDROME — Dr. Joy DeGruy
A form of slavery which was predicated on the belief that African Americans were inherently/genetically inferior to whites. This was then followed by institutionalized racism which continues to perpetuate injury. Thus, resulting in M.A.P.: M: Multigenerational trauma together with continued oppression;

Respect Our Roots: A Brief History Of Our Braids - Essence
A NEW WORLD, A NEW MEANING According to Fraser, it’s impossible to understand the history of braids, and Black American hair culture in general, without looking at the impact of slavery on historical trauma and identity formation.

**Historical trauma as public narrative: A conceptual review**

Trauma narratives represent an interplay between personal stories and culture and, therefore, are cultural constructions of trauma (Kienzler, 2008). Cultural narratives of trauma may be especially relevant to health, perhaps more so than the actual occurrence of an event, because they frame the psychosocial, political-economic, and social aspects of trauma.

**What is Modern Slavery? - United States Department of State**

“Trafficking in persons,” “human trafficking,” and “modern slavery” are used as umbrella terms to refer to both sex trafficking and compelled labor. The Trafficking Victims Protection Act of 2000 (Pub. L. 106-386), as amended (TVPA), and the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the United Nations Child Rights Conventions (Nos. 8, 19, and 28).
