Brinton 2017-07-24 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Gender in Solomon's Song of Songs-Alastair Ian Haines 2016-12-14 The thesis shows that the Song of Songs can be read as a circular sequence of sub-poems, that follow logically from one another if they are understood as contributing to two main points, made in a woman's voice. The woman urges men to take romantic initiative to be committed exclusively and for life, and urges women three times to wait until they are approached by such men. If this reading is the best explanation of the text of the Song, then the Song is a unified work centered on a woman singing about human romantic love from a woman's perspective.

Anthropomorphic Imagery in the Mesoamerican Highlands—Brigitte Faugère 2020-02-15 In Anthropomorphic Imagery in the Mesoamerican Highlands, Latin American, North American, and European researchers explore the meanings and functions of two- and three-dimensional human representations in the Precolumbian communities of the Mexican highlands. Using anthropomorphic representations from an ontological perspective, the contributors demonstrate the rich potential of anthropomorphic imagery to elucidate personhood, conceptions of the body, and the relationship of human beings to other entities, nature, and the cosmos. Using case studies covering a broad span of highlands prehistory—Classic Teotihuacan divine iconography, ceramic figures in Late Formative West Mexico, Epimictic Puebla-Tlaxcalan costumed figures, earth sculptures in Prehispanic Oaxaca, Early Postclassic Tula symbolic burials, Late Postclassic representations of Aztec Kings, and more—contributors examine both Mesoamerican representations of the body in changing social, political, and economic conditions and the multivalent emanc meanings of these representations. They explore the technology of artifact production, the body’s place in social structures and rituals, the language of the body as expressed in postures and gestures, hybrid and transformative combinations of human and animal bodies, bodily representations of social categories, body modification, and the significance of portable and fixed representations. Anthropomorphic imagery in the Mesoamerican Highlands provides a wide range of insights into Mesoamerican concepts of personhood and identity, the constitution of the human body, and human relationships with gods and ancestors. It will be of great value to students and scholars of the archaeology and art history of Mexico.
