Against the Wall: William Parry 2011-04: Featuring the work of acclaimed artists such as Banksy, Ron English, and Blu, as well as Palestinian artists and activists, the photographs in this collection express outrage, compassion, and touching humor while illustrating the lives and livelihoods of the tens of thousands of people affected by Israel’s wall. This stunning book of photographs details the graffiti and art that have transformed Israel’s Wall of Separation into a canvas of symbolic resistance and solidarity. The compelling images are interspersed with vignettes of the people who live behind the wall and who suffer due to a lack of work, education, and vital medical care.

Reason Why Advertising - With Intensive Advertising: John E. Kennedy 2017-08-18: “ADVERTISING should be judged only by the goods it is conclusively known to sell, at a given cost. Mere opinions on Advertising Copy should be excluded from consideration, because opinions on Advertising are conflicting as opinions on Religion. “But, it is different with Advertising, as it is with Mechanics or with Medicine, all three of which can be conclusively tested.” “Many Advertisers, however, seem satisfied to spend their money on mere Opinions about Advertising when they might have invested it on Evidence about Advertising. “When it is anything less than Salesmanship it is not real Advertising, but only ‘General Publicity.’ And, ‘General Publicity’ admittedly claims only to ‘Keep the Name before the People,’ - to produce a ‘General impression on the Trade,’ and to ‘influence Sales’ for the salesman. “The only way to judge Advertising is to judge it by the amount of goods it is conclusively known to Sell, at a given cost.” Get Your Copy Today.

The Theory of Prosperity: Simón Nelson Patten 1902

Smith & Wesson: Roy G. Jinks 2006: Horace Smith and Daniel Baird Wesson shared a dream of manufacturing a firearm that could fire repeatedly, using a new and self-contained cartridge. In 1852, the dream became a reality with the founding of Smith & Wesson Firearms Company. Over the next 154 years, the company grew to be one of the most innovative and respected firearms manufacturers in the world. The story of Smith & Wesson is not only about two knowledgeable and enterprising men but also the story of generations of creative and dedicated men and women. The spirit of innovation generated by the partners has long outlived them. Today Smith & Wesson is synonymous with quality, performance, and durability. Smith & Wesson explores the company history, its people, and significant products from the partners’ first venture in 1852 to the sale of the Wesson family business in 1965. This book features rarely seen historical photographs, advertisements, and company documents culled from the company’s archive, museums collections, and the private collections of Smith & Wesson collectors.

The Taking of Jemima Boone: Matthew Pearl 2021-10-05: In his first work of narrative nonfiction, Matthew Pearl, bestselling author of acclaimed novel The Dante Club, explores the little-known true story of the kidnapping of legendary pioneer Daniel Boone’s daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro. The echoes of their faraway screams linger on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. Hanging Maw, the raiders’ leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky’s most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone’s kidnapping vividly illuminates the early days of America’s westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America’s transition from colony to nation, with the heavy moral costs incurred amid shocking betrayals and bitter battles.

Styling the Stars: Angela Cartwright 2017-04-04: A stunning collection of behind-the-scenes hair, makeup, and wardrobe continuity photographs from the Twentieth Century Fox archive. Styling the Stars features images of more than 150 actors—such as Marilyn Monroe, Audrey Hepburn, Julie Andrews, Cary Grant, Clark Gable, and Paul Newman—from more than 100 Fox classics, including Miracle on 34th Street, The Sound of Music, Cleopatra, and Butch Cassidy and the Sundance Kid. In 1997 Twentieth Century Fox established an archive of all-but-forgotten production stills taken during the filming of some of their most memorable movies. Published here for the first time, this archive includes hundreds of riveting portraits of Hollywood’s most treasured leading men and women as they were prepped for the camera. Reveler for their indisputable sense of style, the carefully crafted characters portrayed by the likes of Clark Gable, Julie Andrews, and Audrey Hepburn came as the result of meticulous hairstyling, makeup artistry, and lavish costume design. In Hollywood’s trendsetting world of glamour and glitz, continuity photographs ensured that these wardrobe elements remained consistent throughout the filming process. Once fully styled, stars posed for camera-ready continuity shots, which now, decades later, provide a striking record of the evolution of Hollywood fashion and fandom from the 1930s to the early 1970s. Through these long-lost photographs, which were never intended for the public eye, Styling the Stars takes fans of film, fashion, and photography inside the Twentieth Century Fox archive to deliver an intimate look at Hollywood’s Golden Age and beyond. Written by Angela Cartwright (The Sound of Music, Lost in Space) and Tom McLaren, with a foreword by Maureen O’Hara (Miracle on 34th Street), this collection of candid rarities offers a glimpse into the details of prepping Hollywood’s most iconic personalities, as well as revelatory stories about Twentieth Century Fox classics, such as Planet of the Apes, Cleopatra, Butch Cassidy and the Sundance Kid. The Young Lions, and more. Here you’ll find images of Shirley Temple as she runs a brush through her trademark curls, Marilyn Monroe as she’s styled for her role in Let’s Make It Legal, Cary Grant as he suits up for a swim, and Paul Newman donning a six-shooter, among hundreds of rare, never-before-published photographs.

The Book That Proves Time Travel Happens: Henry Clark 2015-04-14: This never-before-seen twist on time travel adventure explores the theme of accepting those who are different—and having the courage to join them. The moment Ambrose Brody steps into a fortune-teller’s tent, he is whisked into a quest that spans millennia with his best friend, an enigmatic carnival girl, and an unusual family heirloom that drops them into the middle of the nineteenth century! The year 1852 is a dangerous time for three non-white children, and they must work together to dodge slave-catchers and save ancestors from certain death—all while figuring out how to get back to the future. Fortunately, they have a guide in the helpful hints embodied in an ancient Chinese text called the I-Ching, which they interpret using Morse Code. But how can a three-thousand-year-old book be sending messages into the future through a code developed in the 1830s? Find out in this mind-bending, time-bending adventure!
The Hundred-Year Marathon - Michael Pillsbury 2013-02-03 One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise - and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, The Hundred-Year Marathon reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their actions, to show how the teachings of traditional Chinese statcraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders - as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped - sometimes unwittingly and sometimes deliberately - to make this "China Dream" come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year Marathon is a wake-up call as we face the greatest national security challenge of the twenty-first century.

English as a Global Language - David Crystal 2013-02-39 David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Emperor of Japan - Donald Keene 2005-06-14 The renowned Japanese scholar "brings us as close to the inner life of the Meiji emperor as we are ever likely to get" (The New York Times Book Review). When Emperor Meiji began his rule in 1867, Japan was a splintered empire dominated by the shogun and the daimyos, cut off from the outside world, staunchly antiforeign, and committed to the traditions of the past. Before long, the shogun surrendered to the emperor, a new constitution was adopted, and Japan emerged as a modern, industrialized state. Despite the length of his reign, little has been written about the strangely obscure figure of Meiji himself, the first emperor ever to meet a European. But now, Donald Keene starts the available evidence to present a rich portrait not only of Meiji but also of rapid and sometimes violent change during this pivotal period in Japan's history. In this vivid and engaging biography, we move with the emperor through his early, traditional education; join in the formal processes that acquainted the young emperor with his country and its people; observe his behavior in court, his marriage, and his relationships dedicated to charity, bravery, and hard work. Later, during Japan's wars with China and Russia, we witness Meiji's struggle to reconcile his personal commitment to peace and his nation's increasingly militarized experience of modernization. Emperor of Japan conveys in sparkling prose the complexity of the man and offers an unraveled portrait of history in a period of unique interest. "Utterly brilliant . . . the best history in English of the emergence of modern Japan."—Los Angeles Times

Life and Adventures of Jack Engle - Walt Whitman 1917-02-18 In 1852, young Walt Whitman—a novell-on-his-luck housebuilder in Brooklyn—was hard at work writing two books. One would become one of the most famous volumes of poetry in American history, a free verse revelation styled the world over, Leaves of Grass. The other, a novel, would be published under a pseudonym and serialized in a newspaper. A short, rollicking story of orphanhood, avarice, and adventure in New York City, Life and Adventures of Jack Engle appeared to little fanfare. Then it disappeared. No one laid eyes on it until 2016, when literary scholar Zachary Turpin, University of Houston, followed a paper trail deep into the Library of Congress, where the sole surviving copy of Jack Engle has lain waiting for generations. Now, after more than 160 years, the University of Iowa Press is honored to reprint this lost work, restoring a missing piece of America's history by one of the world's greatest authors, written as he wandered on immortality.

Secrets of the Millionaire Mind - T. Harv Eker 2009-18-13 Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states. "Give me five minutes, and..."
I can predict your financial future for the rest of your life!” Eker does this by identifying your “money and success blueprint.” We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker’s rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and “revise” it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen “Wealth Files,” which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that’s exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it’s simple. If you think like rich people think and do what rich people do, chances are you’ll get rich too!

The 50 Most Influential Britons of the Past 100 Years - Peter Pugh 2016-03-03 Peter Pugh presents his selection of – not the best, fastest, most successful or richest – but the 50 most influential British men and women of the modern world – for good or ill. Pugh discusses and ranks the influence of scientists and inventors such as Francis Crick, John Logie Baird and Alan Turing; lawmakers and leaders like prime ministers Attlee, Churchill and Thatcher; entrepreneurs including James Dyson, Mary Quant and Terence Conran; and cultural icons like J.K. Rowling, who, in the words of Lisa Simpson no less, ‘turned a generation of kids onto reading’. One of the most influential Britons in Pugh’s book achieved influence by saying nothing for over 60 years, and the top three places are held by an economist, a scientist and a civil servant ... In what amounts to a whistle-stop tour through recent British history, this undoubtedly contentious and wholly enjoyable book will spark countless debates across our sceptred isle.
