The Education of a Gardener - Russell Page 2007 The Education of a Gardener offers charming, sometimes pointed anecdotes about patrons, colleagues, and, of course, gardens, together with lucid advice for the gardener. Page discusses how to plan a garden that draws on the energies of the surrounding landscape, determine which plants will do best in which setting, plant for the seasons, handle color, and combine trees, shrubs, and water features to rich and enduring effect. To read The Education of a Gardener is to wander happily through a variety of gardens in the company of a wise, witty, and knowledgeable friend. It will provide pleasure and insight not only to the dedicated gardener, but to anyone with an interest in abiding questions of design and aesthetics.

Penelope Hobhouse on Gardening - Penelope Hobhouse 1994 In Penelope Hobhouse on Gardening, the great gardener and designer reveals the secrets behind her distinctive style of gardening. Taking as her model Tintinhull, the National Trust garden in Somerset, England which she tended for 14 years, she sets out her principles of gardening and explores the elements that compose a garden of excellence. Through practical examples, drawn from Tintinhull and from gardens she herself has designed all over the world, she shows gardeners how they can achieve the results they want and shares her labor-saving tricks as well. Close-up photographs show how she takes cuttings, plants pots, prunes shrubs, clips topiary and generally keeps the garden looking wonderful.

The Promise of the Suburbs - Sarah Bilston 2019-02-05 A study of the fast-growing Victorian suburbs as places of connection, creativity, and professional advance, especially for women. From the earliest decades of the nineteenth century, the suburbs were maligned by the aristocratic elite as dull zones of low cultural ambition and vulgarity, as well as generally female spaces isolated from the consequential male world of commerce. Sarah
Bilston argues that these attitudes were forged to undermine the cultural authority of the emerging middle class and to reinforce patriarchy by trivializing women’s work. Resisting these stereotypes, Bilston reveals how suburban life offered ambitious women, especially women writers, access to supportive communities and opportunities for literary and artistic experimentation as well as professional advancement. From more familiar figures such as the sensation author Mary Elizabeth Braddon to interior design journalist Jane Ellen Panton and garden writer Jane Loudon, this work presents a more complicated portrait of how women and English society at large navigated a fast-growing, rapidly changing landscape.

The Shadowed Country - Josh Gosciak 2006-01-31 One of the most important voices of the Harlem Renaissance, Claude McKay is largely recognized for his work during the 1920s, which includes a major collection of poems, Harlem Shadows, as well as a critically acclaimed novel, Home to Harlem. But McKay was never completely comfortable with his literary reputation during this period. Throughout his world travels, he saw himself as an English lyricist. In this compelling examination of the life and works of this complex poet, novelist, journalist, and short story writer, Josh Gosciak sheds light on McKay’s literary contributions beyond his interactions with Harlem Renaissance artists and writers. Working within English literary traditions, McKay crafted a verse out of hybridity and diaspora. Gosciak shows how he reinvigorated a modern pastoral through his encounters with some of the major aesthetic and political movements of the late Victorian and early modern periods. Exploring new archival material as well as many of McKay’s lesser known poetic works, The Shadowed Country provides a unique interpretation of the writings of this major author.

New Woman Ecologies - Alicia Carroll 2019-10-25 A transatlantic phenomenon of the late nineteenth and early twentieth centuries, the "New Woman" broke away from many of the constraints of the Victorian era to enjoy a greater freedom of movement in the social, physical, and intellectual realms. As Alicia Carroll reveals, the New Woman also played a significant role in environmental awareness and action. From the Arts and Crafts period, to before, during, and after the Great War, the iconic figure of the New Woman accompanied and informed historical women’s responses to the keen environmental issues of their day, including familiar concerns about air and water quality as well as critiques of Victorian floral ecologies, extinction narratives, land use, local food shortages, biodiversity decline, and food importation. As the Land Question intersected with the Woman Question, women contributed to a transformative early green culture, extolling the benefits of going back to the land themselves, as "England should feed her own people." Carroll traces the convergence of this work and a self-realization articulated by Mona Caird’s 1888 demand for the "acknowledgement of the obvious right of the woman to possess herself body and soul." By the early twentieth century, a thriving community of New Woman authors, gardeners, artists, and land workers had emerged and created a vibrant discussion. Exploring the early green culture of Arts and Crafts to women’s formation of rural utopian communities, the Women’s Land Army, and herbalists of the Great War and beyond, New Woman Ecologies shows how women established both their own autonomy and the viability of an ecological modernity.
Sermons On Selected Lessons Of The New Testament (Annotated Edition)-St. Augustine of Hippo 2012 This is the extended and annotated edition including * an extensive biographical annotation about the author and his life The Sermons of St. Augustine, besides their other excellencies, furnish a beautiful picture of perhaps the deepest and most powerful mind of the Western Church adapting itself to the little ones of Christ. In them, he who has furnished the mould for all the most thoughtful minds for fourteen hundred years, is seen forming with loving tenderness the babes in Christ. Very touching is the child-like simplicity, with which he gradually leads them through what to them were difficulties, watching all the while whether he made himself clear to them, keeping up their attention, pleased at their understanding, dreading their approbation, and leading them off from himself to some practical result. Very touching the tenderness with which he at times reproves, the allowance which he makes for human infirmities and for those in secular life, if they will not make their infirmities their boast, or in allowed duties and indulgences forget God. But his very simplicity precludes the necessity of any preface. His Sermons explain themselves. They appear from a passage in the Commentary on the Psalms to have been often taken down in writing at the time by the more attentive sort of hearers (as were those of St. Chrysostom); Possidius states that this was done from the commencement of his presbyterate, and that “thence through the body of Africa, excellent doctrine and the most sweet savour of Christ was diffused and made manifest, the Church of God beyond seas, when it heard thereof, partaking of the joy.”

The Muddy Fingers Garden Crew to the Rescue! - D. S. Venetta 2017-08-30 Jamal Livingston is stressed out. His community garden is in jeopardy of closure, because volunteers are squabbling and an angry neighbor is threatening to have the garden shut down completely. A horrible prospect! Not only do Jamal and the others share their produce with the local food pantry, they teach others how to garden and eat healthy. When Jamal shares the news with his friends at school, the children are beside themselves. Close the garden? When it's doing so much good? Absurd. The students of Beacon Academy won't stand for it. If the neighbors won't volunteer to work the garden, then they will. The kids are experts now. They can handle any gardening challenge! It's the moment Jamal learns the true power of community outreach. But as the kids work their plan, they quickly discover there's more at play than cranky volunteers and an unhappy neighbor. A lot more, including Mother Nature herself. The kids might have piles of energy, but can they overcome all obstacles and save the garden? Find out in book 3 of the Wild Tales & Garden Thrills series...

Selected Writings of Thomas Paine - Thomas Paine 2014-11-25 A central figure in Western history and American political thought, Thomas Paine continues to provoke debate among politicians, activists, and scholars. People of all ideological stripes are inspired by his trenchant defense of the rights and good sense of ordinary individuals, and his penetrating critiques of arbitrary power. This volume contains Paine’s explosive Common Sense in its entirety, including the oft-ignored Appendix, as well as selections from his other major writings: The American Crisis, Rights of Man, and The Age of Reason. It also contains several of Paine’s shorter essays. All the documents have been transcribed directly from the originals, making this edition the most reliable one available. Essays by Ian Shapiro, Jonathan Clark, Jane Calvert, and Eileen Hunt Botting bring Paine into sharp focus, illuminating his place in the tumultuous decades surrounding the American and French Revolutions and his larger historical legacy.

*Leopold Lugones--Selected Writings*- Leopoldo Lugones 2008-03-19 Argentina's best-known writer during his lifetime, Leopoldo Lugones's work spans many literary styles and ideological positions. He was influential as a modernist poet, as a precursor of the avant-garde, and also as the poet of Argentine nature. His short stories (Las Fuerzas Extranas: 1906) were early examples of the fantastic in Latin American fiction and influenced Borges, Quiroga, and others. They reflect an interest in the uncanny and inspired contemporary interest in animism and occultism because the protagonists of many of the stories were scientists and doctors experimenting in the transmutation of thought. His prose works include La Guerra Gaucha (1905) and the essay El Payador (1916) in which he idealized the gaucho as a heroic figure, popular poet, and a symbol of Argentine identity. Lugones altered his political views many times, adopting radical anarchism, and later in life, fascism. He was therefore a controversial figure, both acclaimed and scorned by his contemporaries. His adherence to the importance of literary form drew criticism from the new generation of writers, such as Borges, but Borges later stated in 1955 that "Lugones was and continues to be the greatest Argentine writer."
