**The Next Evangelicalism:**

Soong-Chan Rah 2009-11-11

The future is now. Just as global Christianity is shifting away from the West to the South and the East, so too is the North American church diversifying in terms of race, ethnicity, and culture. While some parts of American Christianity are in decline, others are experiencing transformation and growth as a result of increasing globalization. Spiritual renewal is happening in corners and margins not always noticed by those in the center. Soong-Chan Rah calls the North American church to escape its captivity to Western cultural trappings and to embrace a new evangelicalism that is diverse and multiethnic. While many while churches find themselves ill-equipped to minister to today's cultural context, many immigrant and multilingual churches are flourishing, offering much-needed alternatives for the church as a whole. The church is changing to embody the cultural realities of the twenty-first century. Come, discover the vitality of the next evangelicalism.

**The Babylonian Captivity of the Church:**

1520 Martin Luther 2016-06-15

In his The Babylonian Captivity of the Church, Martin Luther set forth a reconsideration of the sacramental Christian life that centered on the word. His thesis is that the papacy had distorted the sacraments with its own traditions and regulations, transforming them into a system of control and coercion. The evangelical liberty of the sacramental promises had been replaced by a papal absolutism which, like a feudal lordship, claimed its own jurisdictional liberties and privileges over the totality of Christian life through a sacramental system that spanned birth to death. Yet Luther does not replace one tyranny for another; his argument for a return to the biblical understanding of the sacraments is moderated by a consideration of traditions and external practices in relation to their effects on the individual conscience and faith. This volume is excerpted from The Annotated Luther series, Volume 3. Each volume in the series contains new introductions, annotations, illustrations, and notes to help shed light on Luther's context and interpret his writings for today. The translations of Luther's writings include updates of Luther's Works, American Edition, or entirely new translations of Luther's German or Latin writings.

**Arab Orthodox Christians Under the Ottomans 1516-1831:**

Constantin Alexandrovich Panchenko 2016-05-23

Following the so-called "Arab Spring" the world's attention has been drawn to the present-day minority religious groups within the predominantly Islamic Middle East. Of these minorities Christians are by far the largest, comprising over 10% of the population in Syria and as much as 40% in Lebanon. The largest single group of Christians are the Arab-speaking Orthodox. This work fills a major lacuna in the scholarship of wider Christian history and more specifically that of lived religion within the Ottoman empire. Beginning with a survey of the Christian community during the first nine hundred years of Muslim rule, the author traces the evolution of Arab Orthodox Christian society from its roots in the Hellenistic culture of the Byzantine Empire to a distinctly Syro-Palestinian identity. There follows a detailed examination of this multi-faceted community, from the Ottoman conquest of Syria, Palestine and Egypt in 1516 to the Egyptian invasion of Syria in 1831. The author draws on archaeological evidence and previously unpublished primary sources recovered in Russian archives and Middle Eastern monastic libraries to present a vivid and compelling account of this vital but little known spiritual and political culture, situated within a complex network of relations reaching throughout the Mediterranean, the Caucasian and Eastern Europe. The work is made more accessible to a non-specialist reader by the addition of a glossary, whilst the scholar will benefit from a detailed bibliography of both primary and secondary sources. A foreword has been contributed to this first English language edition by the Patriarch of Antioch, John X. It contextualizes the history found in this work within the ongoing struggle to preserve the ancient Christian cultures of the Arabic speaking peoples from extinction within their ancestral homeland.

**Churches and Religion in the Second World War:**

Jan Bank 2016-03-24

Despite the wealth of historical literature on the Second World War, the subject of religion and churches in occupied Europe has been neglected - until now. This critical European history is unique in delivering a rich and detailed analysis of churches and religion during the Second World War, looking at the Christian religions of occupied Europe: Catholicism, Lutheranism, Calvinism, and Orthodoxy. The authors engage with key themes such as relations between religious institutions and the occupying forces; religion as a key factor in national identity and resistance; theological answers to the Fascist and National Socialist ideologies, especially in terms of the persecution of the Jews; Christians as bystanders or protectors in the Holocaust, and religious life during the war. Churches and Religion in the Second World War will be of great value to students and scholars of European history, the Second World War and religion and theology.

His Handbook, written during the Age of Enlightenment in Europe, shares an exalted vision of human nature, but a vision that proceeds from the truths of revelation as interpreted by the Greek Fathers, not Descartes.

**The Orthodox Church:**

Jean Meyendorff 1981

"The Orthodox Church, presented here in a newly revised edition, has become an indispensable classic on the history of the Orthodox Church and the unique position it holds in today's world. Fr. Meyendorff reviews the great events and the principle stages in a history of nearly two thousand years, its diversity not only in Eastern and far-Eastern countries, but also in the West and in the whole world. He also presents the culture and spiritual tradition of Orthodoxy, its connection to other Christian churches, its religious activities in various communities and its position and actions in former Eastern Communist countries. The postscript describes the new post-Communist situation of Orthodoxy."

**Moldova-Beacon of Liberty:**

Rebecca Haynes 2020-03-19

Moldova is a new nation-state with a long history. Despite only recently gaining independence, following the fall of the Soviet Union in 1991, Moldova's roots stretch all the way back to the Principality of Moldavia, established in 1359. After centuries teetering under Ottoman control, and lately Russian imperial rule, the Moldovans briefly tasted independence in the early twentieth century, before being annexed by the Soviet Union. In recent times, the Transnistrian Dispute has once again threatened the sovereignty, and indeed the independence, of Moldova and this conflict remains unresolved today. For the first time in English, this book places the problems of contemporary Moldova in a long-term historical perspective. It argues that the Moldovans' complex relations with the Russians and the West are not simply the product of the Soviet era but have their roots in earlier centuries. Haynes contends that the Moldovan lands, and Moldovan society and culture, have long been contested: by the Roman and Byzantine Empires of antiquity, by the expanding Hungarian and Polish-Lithuanian kingdoms in the Middle Ages, by the Ottoman, Habsburg, Russian and Soviet empires in more recent centuries, and by the Romanian state. The book provides a political and cultural history of the growth and development of the medieval Principality of Moldova, the Principality's partition and Russian rule in Bessarabia from 1812, Bessarabia under Romanian rule in the inter-war period, Soviet Moldova and the independent Republic of Moldova.

**Enlightenment and Revolution:**

Paschalis M. Kitromilides 2013-11-01

Greece sits at the center of a geopolitical storm that threatens the stability of the European Union. To comprehend how this small country precipitated such an outsized crisis, it is necessary to understand how Greece developed into a nation in the first place. Enlightenment and Revolution identifies the ideological traditions that shaped a religious community of Greek-speaking people into a modern nation-state—albeit one in which anti-liberal forces have exercised a high price. Paschalis Kitromilides takes in the vast sweep of the Greek Enlightenment in the eighteenth and nineteenth centuries, assessing developments such as the translation of modern authors into Greek; the scientific revolution; and the rediscovery of the civilization of classical Greece; and a powerful countermovement. He shows how Greek thinkers such as Voulgaris and Kanavis converged with currents of the European Enlightenment, and demonstrates how the Enlightenment's confrontation with Church-sanctioned ideologies shaped present-day Greece. When the nation-state emerged from a decade-long revolutionary struggle against
Wayward Christian Soldiers—Charles Marsh 2008-10-27 In Wayward Christian Soldiers, leading evangelical theologian Charles Marsh offers a powerful indictment of the political activism of evangelical Christians and churches in the United States. With emphasis on repentance and renewal, this important work advises Christians how to understand and address the past mistakes and errors making them in the future. Over the past several years, Marsh observes, American evangelicals have achieved more political power than at any time in their history. But access and influence have come at a cost to their witness in the world and the integrity of their message. The author offers a sobering contrast between the contemporary evangelical elite, which forms the core of the Religious Right, and the historic Christian tradition of respect for the mystery of God and appreciation for human fallibility. The author shows that the most prominent voices in American evangelicalism have arrogantly redefined Christianity on the basis of partisan politics rather than scripture and tradition. The role of politics in distorting the Christian message can be seen most dramatically in the invasion of Iraq, he argues. Some 87% of American evangelicals supported going to war, while every single evangelical church outside the United States opposed it. The Jesus who storms into Baghdad behind the wheel of a Humvee, Marsh points out, is not the Jesus of the Gospel. Indeed, not since the nazification of the German church under Hitler has the political influence of Christianity led to such catastrophic global consequences. Is there an alternative? This book proposes that the renewal of American Christianity requires a season of concentrated attention to faith’s essential affirmations—a time of hospitality, peacemaking, and contemplative prayer. Offering an authentic Christian alternative to the narcissistic piety of popular evangelicalism, Wayward Christian Soldiers represents a unique entry into the increasingly pivotal debate over the role of faith in American politics. “With Wayward Christian Soldiers, Charles Marsh again shows that he is one of the most astute observers of evangelicalism today.”—Jim Wallis, author of God’s Politics

Eastern Churches Review 1966

Layered Landscapes—Eric Nelson 2017-06-26 This volume explores the conceptualization and construction of sacred space in a wide variety of faith traditions: Christianity, Hinduism, Islam, Judaism, and the religions of Japan. It displays the notion of “layered landscapes” in order to trace the accretions of praxis and belief, the tensions between old and new devotional patterns, and the imposition of new religious ideas and behaviors on pre-existing religious landscapes in a series of carefully chosen locales: Cuzco, Edo, Geneva, Granada, Herat, Istanbul, Jerusalem, Kanchipuram, Paris, Philadelphia, Prague, and Rome. Some chapters home in on the process of imposing novel religious beliefs, while others focus on how vestiges of displaced faiths endured. The intersecion of sacred landscapes with political power, the world of ritual, and the expression of broader cultural and social identity are also examined. Crucially, the volume reveals that the creation of sacred space frequently involved more than religious buildings and was a work of historical imagination and textual expression. While a book of contrasts as much as a volume, the demonstration varies that powerful questions about the location of sacred and its reification in the landscape were posed by religious believers across the early-modern world.

Historic Cities of the Islamic World—Clifford Edmund Bosworth 2007-01-01 This book contains articles on historic cities of the Islamic world, ranging from West Africa to Malaysia, which over the centuries have been centres of culture and learning and of economic and commercial life, and which have contributed much to the consolidation of Islam as a faith and as a social and political institution. Evangelical leaders and churches have taken on an outspoken critique of contemporary thought and belief. Nevertheless, the authors present a number of important findings about the current status of research in medieval studies and the debates therein. The third section is a lexicon of the most important text genres of the Middle Ages. The fourth section provides an additional expenses resulting from the translation and editing of some of the contributions. Last but not least we should like to thank Prof. R.H. Popen for his stimulating interest in the publication of this volume. The Stichting Dr Hendrik Muller’s Vaderlandsch Fonds gave a generous grant in defrayal of the cost of printing, and the Ir. Icons in Time, Persons in Eternity—C.A. Tsakiridou 2016-05-13 Icons in Time, Persons in Eternity presents a critical, interdisciplinary examination of contemporary theological and philosophical studies of the Christian image and redefines this within the Orthodox tradition by exploring the ontological and aesthetic implications of Orthodox ascetic and mystical theology. It finds Modernist interest in the aesthetic peculiarity of icons significant, and essential for re-evaluating their relationship to non-representational art. Drawing on classical Greek art criticism, Byzantine ekphrasis and hymnography, and the theologies of St. Maximus the Confessor, St. Symeon the New Theologian and St. Gregory Palamas, the author argues that the ancient Greek concept of energeia best conveys the expression of theophany and theosis in art. The qualities that define energeia - inherent liveliness, expressive autonomy and self-subsuming form - are identified in exemplary Greek and Russian icons and considered in the context of the hecsaphtic theology that lies at the heart of Orthodox Christianity. An Orthodox aesthetics is thus outlined that recognizes the transcendent being of art and is open to dialogue with diverse pietistic and iconographic traditions. An examination of Ch’an (Zen) art theory and a comparison of icons with paintings by Wassily Kandinsky, Pablo Picasso, Mark Rothko and Marc Chagall, and by Japanese artists influenced by Zen Buddhism, reveal intriguing points of convergence and difference. The reader will find in these pages reasons to reconcile Modernism with the Christian image and Orthodox tradition with creative form in art.

Imperial Rule-Alekséi I. Miller 2004-01-01 Annotation Renowned academics compare major features of imperial rule in the 19th century, reflecting a significant shift away from nationalism and toward empire in the studies of the state. This book examines the methods discerned in the creation of the Habsburg Monarchy, the Ottoman rule, the Hohenzollerns and Imperial Russia; thereby it responds to the current interest in empires.

Sailing from Byzantium-Colin Wells 2008-12-10 A gripping intellectual adventure story. Sailing from Byzantium sweeps you from the deserts of Arabia to the dark forests of northern Russia, from the colorful towns of Renaissance Italy to the final moments of a millennial city under siege... Byzantium: the successor of Greece and Rome, this magnificent empire bridged the ancient and modern worlds for more than a thousand years. Without Byzantium, the works of Homer and Herodotus, Plato and Aristotle, Sophocles and Aeschylus, would never have survived. Yet very few of us have any idea of the enormous debt we owe them. The story of Byzantium is a real-life adventure of electrifying ideas, high drama, colorful characters, and inspiring feats of daring. In Sailing from Byzantium, Colin Wells tells of the missionaries, mystics, philosophers, and artists who against great odds and often at peril of their own lives spread Greek ideas to the Italians, the Arabs, and the Slavs. Their heroic efforts inspired the Renaissance, the golden age of Islamic learning, and Russian Orthodox Christianity, which came complete with a new alphabet, architecture, and one of the world’s greatest artistic traditions. The story’s central reference point is an arcane squabble called the Hesychast controversy that pitted humanist scholars led by the brilliant, acerbic intellectual Barlaam against the powerful monks of Mount Athos led by the stern Gregory Palamas, who denounced “pagan” rationalism in favor of Christian mysticism. Within a few decades, the light of Byzantium would be extinguished forever by the invading Turks, but not before the humanists found a safe haven for Greek literature. The controversy of rationalism versus faith would continue to be argued by some of history’s greatest minds. Fast-paced, compulsively readable, and filled with fascinating insights, Sailing from Byzantium is one of the great historical dramas—the gripping story of how the flame of civilization was saved and passed on.

Prelude on the Babylonian Captivity of the Church-Martin Luther 2018-04-02 Prelude on the Babylonian Captivity of the Church is a theological treatise, one of the major tracts published by Martin Luther in 1520. Into Captivity They Will Go-Noah Milligan 2019-10-01 "Deeply moving, sad and haunting..."—Brandon Hobson, National Book Award Finalist and author of Where the Dead Sit Talking Into Captivity They Will Go is a story for our time, told with sometimes brutal emotional honesty and always with compassion."—Jennifer Haug, author of In the Shadow of 10,000 Hills Set in rural Oklahoma, Into Captivity They Will Go tells the story of Caleb Gunter, a boy whose mother has convinced him he is the second coming of Jesus Christ and that together they are destined to lead the chosen into the Kingdom of Heaven. Believing the Seven Seals detailed in Revelation have been opened, he and his mother flee their home to join a tongue-speaking evangelical church and to prepare for the end of the world, but after tragedy ensues, Caleb must rebuild his life without the only support he has ever known—his mother and the church. An exploration of familial bonds and extremist faith, Into Captivity They Will Go is a whirlwind bildungsroman that reveals the fragility of a child’s identity. It is at once a study of guilt and redemption, and a book of how shattered trust can yet still lay the foundation for an entire life.

Three Treatises-Martin Luther 1970-01-01 Martin Luther posted his Ninety-five Theses on the church door at Wittenberg in 1517. In the three years that followed, Luther clarified and defended his position in numerous writings. Chief among these are the three treatises written in 1520. In these writings Luther tried to frame his ideas in terms that would be comprehensible not only to the clergy but to people from a wide range of backgrounds. To the Christian Nobility of the German Nation is an attack on the corruption of the church and the abuses of its authority, bringing to light many of the underlying reasons for the Reformation. The second treatise, The Babylonian Captivity of the Church, contains Luther’s sharp criticism of the sacramental system of the Catholic Church. The Freedom of a Christian gives a concise presentation of Luther’s position on the doctrine of justification by faith. The translations of these treatises are all taken from the American edition of Luther’s Works. This new edition of Three Treatises will continue to be a popular resource for individual study, church school classes, and college and seminary courses.
